

Unnati Bamania

FULL STACK WEB DEVELOPER

unnatibamania8@gmail.com 

unnati2000.github.io 

ABOUT ME

An avid full stack web developer proficient in **modern JavaScript technologies**, focused on creating user-centric websites and services. Creative with the frontend and critical in the backend, I aim to keep a perfect balance between performance and user experience. Always up for learning new and challenging technologies.

EXPERIENCE

MERN STACK DEVELOPER

[Smilycon](#), November 2020 - January 2021

Built an online dental appointment system for bridging the gap between dentists and patients via the internet.
Tech Stack: **Next.js, Node.js, Redux Toolkit, MongoDB**
