Royal college

06/2016 - 06/2018

State board

- 91.38%

Mira road

### Graduation

Shri LR Tiwari college of engineering

06/2018 - 06/2022

MU

- 8.6 CGPA

Mira Road

## WORK EXPERIENCE

### MERN Stack Developer

Smilycon

10/2020 - 02/2021

It's a health-based startup where they wanted us to build a MERN stack website for them

Mumbai, India

## ORGANIZATIONS

### Smart Coder (01/2021 - Present)

I write tech based articles for this organization. Most of my content is related to web-dev.

## TECHNICAL SKILLS

HTML & CSS

C&C++ Programming language

Python

NodeJs

ReactJS

Figma

MYSQL

Vanilla JS

Mongodb

PHP

## PROJECTS

### Canteen Management System (10/2020 - 10/2020)

- Canteen Management System was designed as a dummy project for our college canteen. It has an admin page, here admin can add and delete food item. Admin keeps the track of orders which are ready or not. User can order stuff here and has to pay bill online. Tech Stack used is MERN ie MongoDB, NodeJs & ReactJS.

- github: <https://github.com/unnati2000/canteen-management>

### Foodie fiesta (06/2020 - Present)

- It's a social network website, where one can add the photo of the food item prepared and the recipe. It contains authentication using jwt and liking and comment properties along with follow unfollow property as well.
- watch: <https://foodie-fiestao.herokuapp.com/>
- github: <https://github.com/unnati2000/foodie-fiesta>

### Real Estate (04/2020 - Present)

- Made using node-mongoose. It shows different properties, price, location, address and other details. One can send it enquire in the enquiry section. It also contains an admin section to add or delete property but to access it, it also has authentication which only admin can access. Authentication made using passportjs
